Report From the Phil- ippine Islands.

Aguinaldo Is Getting Quite Friendly Again.

Manila, via Hong Kong to Washington, Aug. 5.—(Special.)—General President Dictator Aguinaldo is becoming quite friendly again. He has made overtures to Gen. Merritt and wants to march his native troops with the American regiments when the city falls. He even offers to raise native troops to be commanded by American officers. He is evidently thoroughly alarmed at the prospect of having the United States withdraw and leave Spain free to resume hostilities against the insurgents before the actual capture of Manila.

May Make a Stand at Aibonito on the San Juan Road.

Ponce, Island of Porto Rico, Aug. 5.—(Special.)—So far as known, no forward movement will be made by the American troops until the arrival of more transports, which are expected hourly.

There has been no fighting up to the present so far as known. The Spaniards are expected to make their first stand at Aibonito, thirty-five miles from here, where two or three thousand Spanish regulars are believed to be entrenched.

The present prospect is that there will be no actual fighting for several days. The Spaniards are reported to be advancing, though it is not generally believed. In addition to the regular fortifications at Aibonito, on the road to San Juan, it is reported that the enemy mined the cliffs, preparatory to blocking the road if obliged to retire.

Court Martialed and Shot.

Col. Sam Martin's Fate.

Madrid, Aug. 5.—(Special.)—An official dispatch from San Juan de Porto Rico says Col. San Martin, who was in command of the Spanish garrison at Ponce, has been court-martialed and shot for abandoning the place without resisting. Lieut. Col. Putz, the second in command, committed suicide.

TEDDY

May Resign When He Gets Home.

Shafter May Be Court Mar- tialed For Slowness.

Washington, Aug. 5.—(Special.)—It is said Col. Roosevelt will resign his commission when his command returns, but the report is not confirmed.

The whole war department is restive under criticisms in regard to the management of many matters of the war.

It is even said Gen. Shafter is threatened with court martial as a result of slowness in furnishing food and for other bad management.

End Almost at Hand.

Washington, August 5.—(Special.)—The President unhesitatingly states that he confidently believes the war will end to-morrow. As soon as Spain accepts the peace terms, as she is expected to do within 24 hours, the blockade at Havana will be raised and the President may permit Spain's forces to occupy the island of Cuba until after the rainy season is over, for the purpose of doing police duty in advance of the occupation by the American army.

General Shafter's invalid men will embark without delay for the North, so as to allow the immune regiments to garrison the city and guard the Spanish prisoners.

The health of the troops is still very bad.

Waiting Spain's Reply

To Our Ultimatum.

Washington, Aug. 5.—(Special.)—President McKinley is now waiting for Spain's final acceptance of the terms laid down by the United States as the basis on which peace negotiations are to be conducted.

Spain not only knows the terms on which the United States will negotiate, but she knows, as a result of the last conference of Ambassador Cambon with President McKinley, that those terms will not be changed, and that she can do one of the two things—either accept them in their entirety and bring hostilities to an end, or reject them and let the war go on.

The President is convinced as a result of his latest conference with Ambassador Cambon that Spain will accept. He believes that the Spanish government has had enough of fighting and realizes that if the war is continued the conditions will be made much harder in the end.

A Coaling Station in Samoa

Will be Established.

Washington, Aug. 5.—(Special.)—As an earnest of the intention of the Administration to provide protection for American interests in the Pacific and the Far East, steps have been taken to establish a coaling station at Pago Pago, in the Samoan Islands.

If the buildings are not completed by the time of the arrival of the coal it will be dumped on the beach and will be transported to the sheds as soon as they are ready. The sheds will accommodate about seven hundred thousand tons of coal.

DEMOCRATIC GAINS

Shown By the Election Returns in Tennessee.

The county elections in Tennessee yesterday showed a general trend towards the Democratic party all over the state. The Democrats were almost uniformly successful and in some Republican strongholds in East Tennessee surprising Democratic gains were made, a number of counties electing Democratic officers for the first time.

Jno. W. Gaines was renominated for Congress in the Clarksville district.

YESTERDAY'S ELECTION

In Montgomery County and City of Clarksville.

Clarksville, Aug. 5.—(Special.)—There was a quiet election in Montgomery yesterday, with a light vote polled here, something over 800, out of about 1,800 registered. The difficulty experienced by negroes with Dortch law ballots caused the city vote to be small. All negro candidates were defeated, there being colored candidates for Circuit Court Clerk, Sheriff, Constables and minor offices. Indications point to election of A. C. Stafford, Sheriff; close between Dr. N. L. Northington and E. G. Dunlavy for Trustee; T. J. Munford, re-elected Register; C. D. Bailey re-elected County Court Clerk without opposition.

Banks Paying Up.

Frankfort, Ky., Aug. 5.—(Special.)—With but few exceptions the banks of the State have settled with the Auditor for taxes due July 1, on reports made December 31 last. A great number are reducing their capital stock for the coming year and the Auditor anticipates receiving only half as much taxes next year as this.

Is Now Much Better.

Mr. J. T. Smith, who has been sick for several days with a bilious attack, is able to be up to-day.
